LAID BAREA FOLLETTE
LIKE DEBSDawes Warns of
MenaceFor Presidential Candidate
La Follette in
Senator's StrongholdOn Constitutional Rights of
People Jeopardized by
"Water Demagogue"By A. P. NIGHT WIRE
MILWAUKEE, Sept. 11.—The
Milwaukee independent candidacy
of Senator La Follette in his recognized
stronghold tonight by Charles G.
Dawes, Republican Vice-Presiden-
tial candidate, as "the quintessence
of demagogism, animated by the
sole purpose of undermining
the constitutional foundation of this
country."

In the Milwaukee audience, Mr. Dawes declared that in the case of trap, accom-
panying the La Follette effort we
are not prepared to do our duty
to the states of the Constitution of the United States," and
then to this "attack" that Mr.
Dawes devoted most of his at-
tention.

"I am not worried over the out-
come of the Presidential election,"
the Senator declared, "but I can-
not help but feel that a certain
unrest has come over the people."

WOULD REPRINT SPEECH

Speaking of La Follette he said
that he would like to see the
whole speech published in every newspaper in the United States and in the next column the speech made by Eugene Debs.

"Debs went to prison for what
he said," Mr. Smoot declared while
the crowd cheered. "In spite of
La Follette's grandstand play, the
people have not forgotten that

they were there in the Constitu-
tion of the United States and in the
Senate and House today have no men of their
caliber and ability."

NOTHING FRIGHTENED

The speaker referred to Gov. Charles Bryan, Democratic candi-
date for the Vice-Presidency, as
"Brother Bill," brother, and said
he would much prefer him to win
than to have a man such as La Follette in the White House.

The Utah Senator paid a tribute to former Senators such as Ellhu-
man, Smith, and others, referring
to them as intellectual giants
and lamenting that the Senate and
House today have no men of their
caliber and ability.

MASSONS ELECT HIGH PRIEST

The ranking raving critics of
the administration who are run-
ning down the government and the
country were unimpressive, he added.
"They are not opposed to the
existing order of things," he added,
"but they do not believe that they should not
be allowed to continue in power."

BOTH MATCHES ARE CAPTURED

Americans Have Chance to Grab Doubles

(By A. P. NIGHT WIRE)

GERMANTOWN CRICKET CLUB, Philadelphia, Sept. 11.—In a clear-cut fashion the United States lawn tennis team won the first two matches of the challenge round of the Davis Cup competition today on the courts of the Germantown Cricket Club, and gained a commanding lead over Australia.

William T. Tilden II of Philadelphia, the American champion, completely outplayed Australia's greatest player, Gerald L. Patterson, in the first match in straight sets by scores of 6-4, 6-2, 6-2.

Vincent Richards, youth of New York, who defeated the veteran William M. Johnston of California on the American team, justified his selection by the masterly manner in which he won his first match in Davis Cup singles play.

On the second game of the Australian veteran, Pat O'Hara Wood, Richards, by a superlative display of volleysing, raced through the match in straight sets to America's second win. The scores were 6-3, 6-4.

CUP ASSURED

The double victory makes the retention of the Davis Cup a certainty, experts believe. Tomorrow Tilden and Johnston will meet Patterson and Wood in doubles.

Should the team from the Australian prevail in this match, the anchoring of the cup on Saturday by Tilden or Richards, who again play singles with their opponents of today reserved, is undoubtedly.

Today's matches were played under perfect ideal weather conditions. Though there was a flat snap in the air, the wind was negligible, and a warm sun beamed on a perfect playing field. Eight thousand persons saw the contests.

The Tilden-Patterson match was announced this would be last public appearance on the court.

TESTS DENIED ON EASTERN GAMES

(By A. P. NIGHT WIRE)

YORK, Sept. 11.—Three National League games in August were denied to the Eastern division leaders by President John A. Heald. They involved tests against New York, Philadelphia, and New York against Pittsburgh. The Boston team, which had beaten Heydler on the ground before decisions upon which teams were based, were ones which did not follow rules. The third was denied when computation failed to substantiate it.

HITS TWO HOMERS; GOES UP

That's what happened to Cedric Durst, hard-working Angel center fielder yesterday. Durst drove Bob Geary's offerings into the Seals' driving in a man ahead of him both times. After the game Oscar Reichow, business manager of the Los Angeles club, announced that the St. Louis Browns had exercised their option on Durst and that he was to report to the American League club next spring. Durst is a flashy fielder and is batting at a .334 clip.

SERAPHS AGAIN TROUOSE SEALS

Payne Pitches Krugmen to an 8-to-1 Victory

Home Runs by Jenkins and Burst Rout Geary

Fielding of McAuley Aids in Angels' Win

BY ROBERT E. RAY

Our Seal-slapping Seraphs slapped the Seals once more at Washington Park yesterday, handing Mr. Bert Ellison's league-leading outfit an emphatic 8-to-1 licking. That makes this series stand, 3 to 1, with Marty Krug's crew having a decided advantage.

Between the combined efforts of Cedric Durst, the Angel's hustling centerfielder, and George Payne, who attended to the Los Angeles pitching task, the Seals never had a chance. Durst drove two home runs into the right-field bleachers, each circuit wallop coming with a man on base, while Payne held the Seals to one run. Thus, Durst and Payne would have beat San Francisco single-handed, if you want to figure that way. But you've got to give the rest of the Angels some credit, for they all played great ball, each one of them getting at least one hit.

Skipper Krug had a fine day with the willow, driving out three hits in a like number of times as Joe Jenkins skipped a home over the left-field fence with a man on in the fifth. Jimmy McAuley again played star ball at short for the Krugmen, turning in two plays that aided considerably in taking the sap out of the Seals.

Bob Geary started for the Seals, but faded right out of the water-color picture before the rain stopped, singling home three Seraphs homers, after hurling five innings. Harry Schorr, an energetic backstop, finished up on the mound.

DURST TO BROWNS

Maybe Durst's two homers yesterday had something to do with it, but Oscar Reichow, business manager of the Angels, announced that the St. Louis Browns had exercised their option on the flashy fly-chaser. Durst is to report to the Browns next spring and the local club is to get \$3500 for him. Marty Krug hates to lose Durst, but says that he expected the Browns to recall him. St. Louis had until next Monday to decide whether it would take Durst back, and the local club officials were hoping that the Browns might slip up on the matter.

The Seals hit Payne hard in the first four innings, putting two safety hits in each the first, second and fourth, but George managed to prevent them from scoring until the fourth. Waner's single and Durst's double put the Seals across for the fourth. Payne held Ellison's outfit to one hit, making seven in the first round had elapsed.

Bill Tate, negro sparring partner of Firpo, who rivals Jess Willard in mountainous proportions, made a stout work of Mike Carson, a boxer, in the ninth preliminary. Tate's 245 pounds, which gave him a fifty-pound advantage in weight, seemed to discourage Carson, who went down for the count of ten from a short right uppercut after two minutes of the first round had elapsed.

TATE STOPS CARSON

Bill Tate, negro sparring partner of Firpo, who rivals Jess Willard in mountainous proportions, made a stout work of Mike Carson, a boxer, in the ninth preliminary.

Tate's 245 pounds, which gave him a fifty-pound advantage in weight, seemed to discourage Carson, who went down for the count of ten from a short right uppercut after two minutes of the first round had elapsed.

In the brief meeting, Tate, who showed that he could hit as hard as the next one, Firpo went down like he had been struck with a baseball bat, and for several seconds lay there after he didn't know what it was all about.

SUNNY MANDELL MAKES COAST DEBUT IN HOLLYWOOD LEGION FIGHT**SALVADORE AND ADAMS SIGN UP**

Phil Salvadore and Johnny Adams, who thrilled Vernon fans with a great bout last week, have been rematched for the main event next Tuesday night. Jimmy Darcy meets Racehorse Roberts in the semi-wind-up, with Ernie Wood taking Benny Dias in the special. The rest of the card is good also.

MEDINA BILLIED

Joe Medina and Jack Griff in the special spot is the top bout booked for the top spot. Medina is a great scrapper who is best appreciated by the fans when he's in his "style of milling." He has never failed to please, and any boy he meets will be up or fall by the wayside.

The entire card is full of action from the beginning to end. There will be many more bouts at Hollywood tonight, and added with Sammy Mandell as the added attraction a full house is expected.

OTHER BOUTS:

Mike Kaplan vs. David Martin, 125 pounds.

Tommy Green vs. Joe Horne, 125 pounds.

Bob Neufeld vs. Young McGraw, 125 pounds.

HUNTER LOSES AT DEL MONTE

(Continued from First Page) few years ago, 5 and 4, meeting Neitzel tomorrow.

Levinson eliminated Jack Neitzel, several times holder of the State championship, and his nephew, trying to accomplish excellent results, which the former champion could not equal. By far the most convincing round of the day was the one between Griff and who defeated Bud Edwards, and 2, with sensational glee. Ritchie went out under par with 35 and had parts of a 47 when his match ended.

Harold Thompson, Stanley Hughes and Harry Borda are the remaining southern favorites in the Del Monte fight of the tournament following the elimination of E. P. Ferguson and Eddie McBerg today. Borda and Hughes will meet tomorrow, while Thompson faces Francis Murphy, one of Northern California's strong representatives.

E. W. Foreman made a fresh start on the seventh today, in a third-flight match, pooring his heart out and won his match. He won the second last season. On Lydia, secretary of the S.S.C.G.A., went out in 27 at Pebble Beach this morning, establishing a new world's record for himself, and then ended his match in short order. H. Daulton vs. San Francisco, losing, 5 and 4. Complete results follow:

Romans Lack Veteran Grid Men

PROSPECTS ARE NONE TOO GOOD

Coach Bruce Kirkpatrick to Take White's Job

Only Two Lettermen Back for L. A. Eleven

Ray of Hope Seen in Fine Lightweight Men

Football prospects at L. A. High are anything but rosy this year. Summed up, the trouble seems to lie in the fact that Coach Bruce Kirkpatrick has a bunch of green material on his hands, too little time to develop it, and the responsibility of taking charge of the entire football team. Jimmie White is through with gridiron work. "Two lettermen and one or two last year's substitutes have signed up for football this year. Graduation and ineligibility have apparently taken care of most of the 1923 team off the field. As usual, the Pioneers are going to lack weight. Line and backfield will not average more than 16 pounds at the outside. With the City League opening on October 17, less than five weeks remain to teach the "greenies" the fundamentals of football and then the system.

TWO VETERANS

Capt. Phil Kerr and Meyers Butt are the two boys with lettermen's material. Other than De Poer and Edwards were on the squad last year, but none got enough actual experience to count. Don Moses, a newcomer, is reported to have some promising and should be a back-field man of some strength. He is rather light, but fast.

A ray of hope can be found in the numerous lightweight out for the gridiron this year. Amongst these boys are light, two of them can get forty yards out of a punt; several were track men and even a small man can catch a pass. Alvin Keene and Alvarado Pitt, Stock, Cushing, Keene and O'Haver are seeking places on the first team this year and Kirkpatrick may be forced to depend a lot on them. Last year, the experienced men predicted a lot from Alamada. The Mexican is tough and solid—and faster than the ordinary man. He was troubled with inexperience last year, but should turn into something good this time.

RED PROMISING

"Pop" Reed is the most likely-looking second-team man. Reed was dropped from the varsity early season, but hung around with the "Goof" and toward the last of the year showed some promise in little punting ability which he has developed. He is captain of the track team also.

Lyman, Phillips, Winters, Meyer, Voss, Cox and King are the others. Paul Nimmer, hurt early in training last year, is back in a uniform after a wing miracle. Altogether, unless a 1923 miracle happens, the football men should do very well against Lincoln, Manual Arts or Poly.

Rough Riders in First Big Grid Turnout

Roosevelt High School football aspirants are celebrating the fact that Coach "Tiny" Leonard has been secured to head their eleven.

Leonard coached the 1923 Gardens football aggregation to the championship of the Bay Area. He was formerly the football manager of South Pasadena and Pomona High Schools.

A few of his protégés were Don Nichols, '23 captain of the University City football players, and Charles and Bob Travers of Stanford, all-Pacific guard last year.

"Tiny" (Coach Leonard is about six feet two inches tall) and the scales (about 27 pounds) is enthusiastic about the Rough Riders' football chances. He reports a good turnout, but a dearth of good material.

RACE FOR DE MILLE TROPHY ON SUNDAY

This year's motorboat race for the Cecile B. De Mille trophy will be run Sunday in the outer harbor, the three heats starting at 11 a.m. and 1 p.m. It will be a ninety-nine-mile contest, under the auspices of the California Yacht Club over a course of the L.A.A.C. Yacht Harbor, Terminal Island. The event is regarded as a classic, being run on both smooth and choppy water.

There are three entries for the battle—two Fellowes, by Joe Fellowes; Lucky Strike II, by Alvin H. Frank and DeMille, by Cecile De Mille, donor of the beautiful cup. The particular rivalry appears to be between Frank and Fellowes, for of them each holds a victory over the other this summer, and this year the trophy is to be won. The most coveted trophy that is the annual emblem of victory in this race, Mr. De Mille is just as eager to annex the token as his little boy, who shows him the same place her in the can. The DeMille should be worth watching Sunday, as are the others.

WALKER CUP GOLF CARD IS ANNOUNCED

Ten Britishers Go Against Yankee Team Today in Battle of Links

(By A. P. NIGHT WIRE)

GARDEN CITY (N. Y.) Sept. 11. Ten British golfers will begin an effort at the Garden City Golf Club tomorrow to win the Walker Cup and ten Americans will try to keep it in this country, where it has been since competition for it began in 1922.

Assignments of players announced tonight show that every player of each team will take part. The competition consists of four-ball tournaments tomorrow and eight singles Saturday, all at 36 holes. These matches involve only eight players on a side, but team members have been so arranged that players who do not compete in the foursomes will get into the singles.

Chick Evans and Dr. O. F. Wright of the American team will not take part in the foursomes. Harrison Johnson and W. C. Fowles, Jr., will be absent from the singles.

Tomorrow's matches follow:

French Pilot to Take Part in Night Event Tomorrow Evening

Leon Duray, French pilot, will participate in the night races at Ascot Speedway tomorrow night. Rumors have been circulating that the British team will be represented by the Frenchman, but his appearance tonight had created a positive sensation. She had justified to the public many of the claims that the S.R.O. sign will be out on the first preliminary starts.

SALAS AND FIELDS MIX AT VERNON

MERCURY Club Promises Fast Program for Next Thursday Night

George Blake and Charley Kepen of the Los Angeles Athletic Club are being congratulated by boxing fans generally on their plan to hold the big all-star boxing program set for next Thursday night at the Vernon arena instead of in the club gymnasium.

The comparatively small seating capacity of the gym would not begin to care for the big crowd that is expected when George Grant and Jackie Fields go together and besides attendance at the bouts held in the club are restricted to members and their guests. This is to be done to bring in a record crowd, while the semifinal, between Fidal LaBarba and Pat Pringle promises no less interest.

The entire program, according to Maxine Blake, is the fastest he has ever seen lined up for one evening and he says that every one of the boys scheduled on the program is in careful training and will be up to his mark.

Reservations have been heavier than for any previous boxing card held under the auspices of the club and the fact that this program will be open to the general public makes it certain that the S.R.O. sign will be out on the first preliminary starts.

GOOD NEWS FOR AILING WOMEN

Much has been said for and against proprieetary medicines by the medical profession. It will be hard for women to know that in a recent country-wide canvas of over 121,000 purchases of Lydia E. Pinkham's Vegetable Compound as to the results received from its use, the replies received showed that ninety-eight out of every one hundred women had been benefited by its use. Therefore, if you are sick and ailing, a woman owes it to herself to give this remarkably successful remedy a fair trial.—[Advertisement]

POMONA MAYOR TAKEN BY DEATH

Thomas R. Ovington Victim of Pneumonia

Sickness Follows Sojourn in the East

Had Been Most Popular Executive

(EXCLUSIVE DISPATCH) POMONA, Sept. 11.—Thomas R. Ovington, Mayor of the city of Pomona, died at his home here tonight shortly before midnight. He had been in a critical condition throughout the day. All members of his family, including Mrs. Ovington and three sons, James, Wayne and Thomas, were at the bedside.

Death was due to double pneumonia, his body weakened by an intermittent illness of several years. The illness began with a slight cold contracted while Mayor Ovington was in Tokyo, recently attending the meeting of the Supreme Lodge, Knights of Pythias, of which order he has been a prominent member for years. On the return trip he stopped off in Denver. The cold grew worse during his visit there, but was not regarded dangerous. He returned to Pomona last week, but the oppressive weather here caused him to go to Long Beach for a few days.

Feeling much better, he returned to his home in Pomona Tuesday. The morning, however, he suffered a relapse and began to sink rapidly, losing consciousness shortly before noon.

The third Mayor of Pomona, Thomas R. Ovington, elected first in 1912, during one of the bitterest political contests ever attended a Pomona municipal election, has guided the city through more than three years of its greatest period of development. During his administration construction, expansion and community development have risen to new heights. He was re-elected for the second term he is now serving in April, 1925.

Redlands Community Sings Gain Popularity

(LOCAL CORRESPONDENCE) REDLANDS, Sept. 11.—Mrs. G. E. Mullen, president of the Redlands Community Sing Association, says that plans are now pretty well complete for carrying the singing through the winter months, having an artist concert one night each week and forming a big community organization. Carl Kuehn, who is to be in charge of band and orchestra work at Redlands High School, the coming year.

Last week the largest crowd that has attended any of the community artist concert has sung a fine program given by Estelle Campana, voice; Kenneth Hart, piano; Miss Gibbs, coloratura soprano, and Claire Forbes Crane, pianist. The artist concert this week is to be made a part of the great Defense Day program on Saturday.

Ralph North of Ontario, tenor, and Miss Elizabeth Sering, soprano, were soloists at the sing this week. Mr. and Mrs. Allen C. Hart, father from Kenneth Clark of the civic music division of the National Bureau for the Advancement of Music, stated that the bureau has over 400 studios to represent and magazines that run a musical page telling of what is being done in Redlands with the sings.

DEVOTE ALL ENERGY TO FIGHTING FIRE

(LOCAL CORRESPONDENCE) MONROVIA, Sept. 11.—Owing to the seriousness of the fire that is burning in the canyons back of Monrovia which occupy the attention of practically all of the residents the Defense Day program for tomorrow has been indefinitely postponed. Bartle Harvey, representative of the Monrovia post of the American Legion and chairman of the program committee announced today that while an elaborate program had been planned by the committee from the Legion and the city government it was necessary to abandon the plans as so many of the men were fighting the fire or assisting the fire fighters.

Arrangements have been made, however, to receive the registration of men of all ages this evening for the trial session. All service men, American Legion men and other citizens interested are asked to register with Captain Ralph Dammore of the Officers' Reserve Corps, who will be at the City Hall all day tomorrow for this purpose.

ACCEPT RESIGNATION OF CITY ENGINEER

(LOCAL CORRESPONDENCE) GLENDALE, Sept. 11.—The resignation of Benjamin F. Dupuy, City Engineer, and street superintendent, offered to the Glendale City Council at the Thursday meeting was accepted unanimously by the Council and John F. Johanssen, who has been employed in the city engineering department for the last three years, has been appointed to succeed him.

Dupuy refused to make a statement regarding the cause of his resignation although he admits that there has been considerable friction between himself and some of the city officials for some time past.

TWO ARE INJURED

(EXCLUSIVE DISPATCH) HUNTINGTON PARK, Sept. 11.—Heretofore, students of the local high school, districts who had finished two or more years' work in local schools, but who had moved out of the district, were allowed to finish their school work in most cases in the Union High School, but a ruling has been made to the effect that this will not be permitted hereafter. The Huntington Park Union High School district covers roughly the grammar school areas of Huntington Park, Bell, Vernon, Maywood, Laguna, San Antonio and Tweedy.

RAINS ADD MILLIONS TO CROPS

Sudden Jump of River's Flow Saves Expected Loss of Cotton

(BY A. F. NORTON WIND) BRAWLEY, Sept. 11.—Recent rains in the upper reaches of the Colorado River will save an expected \$1,000,000 loss on the Imperial Valley cotton crop, according to growers' statements here today.

A dispatch received today from Federal Weather Observer Gordon A. Young, who stated that 11,000 acre feet of water will flow down the Colorado at Grand Canyon, a gain of 8000 acre feet over yesterday as a direct result of rains on the upper watershed.

The sudden jump in the Colorado's flow is expected to wipe out the water shortage in Imperial and other lower river valleys within eight days at the latest. Imperial Irrigation District officials announced that immediately the increased flow arrives full heads will be restored on all deliveries to ranchers for irrigation purposes.

Bond Election as Predicted at San Diego

(EXCLUSIVE DISPATCH) SAN DIEGO, Sept. 11.—Complete returns today from yesterday's bond election showed that two propositions to raise bonds for various improvements were carried by nearly 10 to 1, and that two propositions for construction of a dam in Mission Gorge and for the acquisition of certain lands, had been defeated, 2 to 1.

Defeat of the water bond propositions had been predicted, in view of a wide divergence of opinion on the question of where the money should be used, and the amount of money that should be spent for the project.

A citizens' committee of fifty, it is understood, will submit a compromise plan for presentation to the voters in the near future.

In a special election yesterday at Coronado, the voters approved by 8 to 1 a \$15,000 bond issue which will be city's share of the expense of constructing a battle fleet boat landing on the ocean side of Coronado. San Diego business interests recently defected to like amount. Work on the project will be started immediately.

UNIDENTIFIED BODY

Recover Remains of Woman In Santa Monica Surf

By a "Times" Staff Correspondent SANTA MONICA, Sept. 11.—The body of a woman who is believed by police to be Mrs. Delia Driscoll, 40, who disappeared from the Venice Pier more than a month ago, was found floating in the water near the Santa Monica pier yesterday in a badly decomposed condition.

Paine and Gutierrez found Aguilar and Jesus Quiniano as the two were swimming together. Paine ordered them to stop and walked up to them. Quiniano struck Paine and started to run. Paine drew a gun from his pocket and fired. The bullet missed his mark. With this Aguilar struck Paine and he also started to run. Paine fired again, the bullet striking Aguilar in the back. A third shot burned his scalp.

DISCHARGE OFFICIAL

New Judge Finds Men Guilty After Acquittal

(EXCLUSIVE DISPATCH) KINGSBURG, Sept. 11.—Two cases involving liquor and a automobile collision and wrong decision by former City Recorder A. Fallgren resulted in his being a Neves of office last Saturday by the City Trustees, have been heard all over again in Justice of the Peace Court. Carlson, court, ruled the result that Bettie, transacting fruit worker, was in the County Jail twenty-five days, and Arnold K. Nelson is out on \$1500 bond.

Bettie and Nelson were arrested after an accident at the intersection of Draper and Sierra streets. Nelson was fined \$25 by Judge Fallgren, which he paid, and Bettie was released without a patch on her dress and had black hair and a scar on the upper left arm. The body is at Todd's mortuary, and it is expected that burial will be held immediately.

POLICE FIND STORE OF STOLEN PROPERTY

By a "Times" Staff Correspondent VENICE, Sept. 11.—Acting on a tip from Los Angeles authorities Venice detectives last night recovered several thousand dollars' worth of loot in the room occupied by Joe Gomez in a local hotel.

Gomez was placed under arrest and is being held for Los Angeles authorities, who will endeavor to learn from him the original owners of eight milks, negligee and cosmetics and what woman's dress and men's suits it is believed that most of the loot is from Los Angeles stores and that Gomez is a member of a gang that uses the Canal City as its unloading point.

COURT'S RULING TO GOVERN OFFICERS

(LOCAL CORRESPONDENCE) GLENDALE, Sept. 11.—Instructions have been issued by Chief of Police J. D. Frazer to his motorcades that they may not pasture only armed speakers while patrolling the highway and while in plain view of the asserted traffic law violator.

These decisions arose from the recent ruling of the court which declared that the grand jury's decision to indict the officers of the county are alert to possible moves of the Klan in the attempt to regain power. Arrests were made by Sheriff Walter A. Bentles, who found the grand jury in all cases where the defense of the highway is discovered.

McGROARTY BOOSTING NEW ORGANIZATION

(EXCLUSIVE DISPATCH) SANTA BARBARA, Sept. 11.—John Steven McGroarty, author of the "Golden Scroll," and noted authority on California history, arrived here today to begin work upon a new book and to assist in the organization of a Santa Barbara chapter of the Golden Scroll. The society was recently instituted to maintain the grandeur of the mission buildings and to preserve the atmosphere and early spirit of Southern California.

It is planned to form a chapter of the order in each of the mission cities.

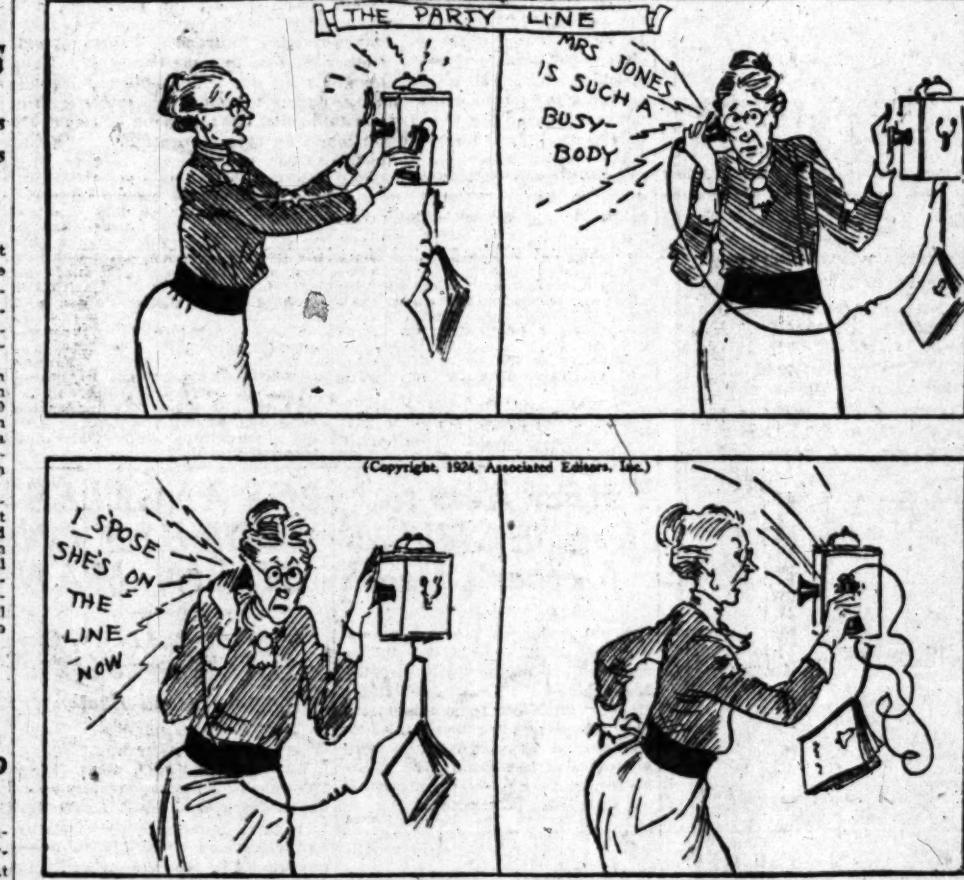

HAT IN THE RING

SAN DIEGO, Sept. 11.—Opponents of Gov. Richardson and Byron J. Walters, successful candidate for the State Assembly in the August primary, today announced that they had selected George A. Garrett, pioneer San Diegan, to oppose Walters in the November election.

Garrett's name will be officially presented at a meeting of anti-Walters forces next week, at which time plans for his campaign will be announced.

PORT TRAFFIC REFLECTS GAIN

August Domestic Commerce Jumps 12 Per Cent

Water Bonds Offered: Bank Buys New Issue

Dividend Payments: Special Stockholders' Meeting

Domestic commerce passing through the Port of Los Angeles for the month of August increased 12 per cent in tonnage over the previous month of July, the foreign trade department of the Chamber of Commerce reported yesterday. Shipments and receipts for the month totaled 1,322,118 tons, having a combined value of \$5,017,317.

In the forward strides made in the size of outgoing shipments through the port is additional evidence of the increasing prosperity activity in Southern California. Shipments for August jumped 13 per cent over July to a total of 960,860 tons, with a value of \$1,960,000. Tonnage received from other domestic ports during the month amounted to 271,258 tons, an increase of 43,538 tons over the previous month. These shipments were valued at \$3,761,317.

With the output of shipments to domestic ports, petroleum continues to hold the lead established in months past. The August total of this commodity was 445,783 tons, with a value of \$7,589,038. The Port of Los Angeles had definitely established itself as the leading point of shipment for petroleum on the American coast, and all signs point to it holding that lead for some time, according to the opinions of oil men.

Other important items accounting for a considerable portion of the total exports are paper and paper products, manufactures, glass and paper, valued at \$105,754; borax, 1454 tons, valued at \$115,340; and lumber, 11,000 tons, having a value of \$144,594.

Building operations in Southern California account for a heavy portion of the receipts. Iron and steel products amounted to 21,800 tons, with a value of \$2,000,072, and lumber receipts totaled 137,128 tons, valued at \$2,380,617. Various items as cement, clay, stone, sand, brick, glass, and glassware, and various products participating in building operations, figure considerably in the August receipts through the port.

GOING BACKWARD
It is set forth that there are regularly more deaths than births in the Belgian Congo country. If this keeps up there won't be any Belgian Congo after awhile.

STORMY KNIGHTS
There are getting to be so many brands of the Klan that a member who thinks he belongs to the Knights of the Knights may awaken to find himself enrolled as a Knight of the Knights.

FELT A FROST
They have been having nipping frosts in the East and Middle West. Something seems to have put a crimp in the La Follette column and possibly this has something to do with it.

THE WILD MAN
Senator Wheeler says that he is going to take New England away from Calvin Coolidge. If the man from Montana had spurs three feet long he couldn't make a dent in Plymouth Rock.

LOW BRIDGE
The most depraved and malignant bandit of the season is the one who was not content with robbing a victim of his purse and jewels, but also took his false teeth. He would take no chance of being bitten by his prey.

THE VERDICT
The Democrats made desperate efforts for a showing in Maine. Candidate Davis was there in person and made one of his pleasing and persuasive speeches. Attempts were made to bring foreign issues into the State—in fact, the Democracy utilized every trick in its bag. And see what happened!

STIFF PUNISHMENT
An Illinois judge sentenced a drunken motorist to the penitentiary for five years. This sounds like a stiff penalty, but a jag at a steering wheel is a distressing combination and its capacity for danger is almost unlimited. But taking away the offender's car should be almost as effective as locking him up for a long time.

TOO MANY COOKS
Speaking about third and fourth parties, does the voter know that there is a national independent party in the field? We are assured that there is one with a Presidential ticket in the running. The nominees are John Sabad and Roy M. Horrop. Radicals who do not want to vote for Battling Bob can plunk one for John.

A NARROW ESCAPE
Senator Couzens appears to have been renominated in Michigan, although the issue was in doubt for a day or two. Senator Couzens is a decidedly irregular Republican and wears his party obligation with studied carelessness, but he did announce his purpose of supporting Coolidge and Dawes and was therefore acceptable to many of the regulars, although Couzens was also supposed to have the backing of the La Follette machine.

CARELESS PRINCE
It is vigorously denied by members of his entourage that the Prince of Wales is a tailor's model. It left to himself he is genuinely careless of his raiment. He really likes a slouchy suit and is not afraid of getting his face dirty. The conventions of society and the call to duty are responsible for his dressing up. He may set a fashion in spite of himself. If he wants something easy and comfortable it may be adopted at once by the smart set as the correct mode. He never intends to make a Brummel out of himself.

THE BIG SPENDERS
American towns of over 30,000 inhabitants last year expended nearly \$2,500,000 under their various municipal budgets; This is more than four times as much as the national government needs for its peace-time expenditures. The State legislatures have developed a marvelous capacity for spending the people's money, but the municipal bodies have been able to surpass them. They have broken all speed records in shoveling away the taxpayers' dough. Take the country over, city expenses have doubled within the last four years—and this whether the community has made any substantial growth or not.

IN ANCIENT DAYS
They have been digging up some wonderful things in Central America and the scientists of all nations are deeply interested. Archaeologists of Harvard University and Carnegie Institute are making reports of wonderful discoveries amid the ruins of the ancient Maya city of Copan. They are said to be stone calendars and memorials and they are declared to be 530 years old. This was before any Egyptian civilization of which any substantial trace can be found. It was long before the days of Tut-Ank-Amen. It is evident that South and Central America had some pretty good carvers and potters in their Neolithic Age. When a scientist wanders around the world with pick and shovel it is hard to tell what will happen. He may dig up the bones of Cerberus. Anyhow, this is a mighty old world and the single-tax party is not the only rule we have.

"CHICAGO JUSTICE"
In order to save Leopold and Loeb, the Chicago murderers, from the gallows it was necessary for the presiding judge to read into the law something that is not written there. He opposed his will to that of the people of Illinois, as expressed through the legislative action of their representatives. Judge Caverly said:

It is not for the court to say that he will not in any case enforce capital punishment as an alternative; but the court believes it is within his province to decline to impose the sentence of death on persons who are not of full age.

But that is not an exception which is made by the criminal statutes of the State of Illinois. The duty of the judge is to administer the law as it is written, not as he thinks it ought to be.

In the opinion of The Times, the whole procedure furnishes a striking example of how justice should not be administered in such cases. The police and the District Attorney did their part in reaching a speedy solution of what at first appeared to be a baffling crime. Arrests were made with commendable promptness. But, as soon as the case came into court, expedition was replaced by delay.

The judge consumed day after day listening to the testimony of alienists on a point that he admits in his decision was not doubtful. The sanity and responsibility of the murderers were beyond question. The killing was premeditated. There were no attenuating circumstances. Yet the judge consumed weeks over trivialities. And, when the case had dragged along to the point where it no longer attracted public attention, he went away to the wood to deliberate over his decision.

Then he came back and pronounced a sentence of life imprisonment, because he declined to "impose the sentence of death on persons who are not of full age."

If that was the only problem, it was required to solve, why so much delay? Was there anything in all the testimony given to render the age doubtful? If his mind was fixed on this point he should have delivered the sentence within an hour after the defendants pleaded guilty.

In criminal cases, justice to be effective must be speedy. The trial of the case savored too much of flirting with justice. Such procedure tends to bring the courts into disrepute, to give a semblance of truth to the charge that there is one justice for the rich and another for the poor. The wealth or poverty of the parents of the boys had nothing to do with the case, if the statutes were strictly followed. Yet the judge seemed complacently willing that the attorney for the defendants should give value received for his enormous fee.

When the guilty escape just punishment for their crimes it is the judge who is condemned.

It is possible that these youths will spend the rest of their lives behind prison bars, expiating their peculiarly atrocious crime. They are moral idiots, of a type that should not be free in any community. But it is equally possible, and perhaps much more probable, that they will receive parole after spending not more than fifteen years of their lives in prison. Their crime was of a nature that they will not be adequately punished if they are permitted again to mingle in freedom with honest people.

The procedure has already received the appellation "Chicago Justice." It will stick as a term of reproach, alike on the judge and the community that elects such men to office.

Significant is the utterance of the District Attorney on hearing the sentence: "I still believe that the death penalty is the only penalty feared by murderers."

GOOD LOSERS

When an automobile owned by a Hollywood man, who had left it parked precariously, dashed down a steep hill and banged against a telephone pole not long ago a crowd gathered about the wrecked machine and discussed the probable cost of the damages. Presently a man came striding steadily down the hill, looked the wreck over calmly, examining the smashed radiator, the crumpled fenders and the broken wind-shield. From his smiling attitude nobody would have suspected that he was the owner and that the car wasn't insured.

"Mighty glad she didn't bang into anybody," was all he said before going to the telephone to call up a repair man to tow the car to the shop.

Somebody remarked that he was the coolest man in the crowd, and so he appeared, though not being in very good circumstances he could ill afford to lose the \$200 or more just swept out of his hand by this unlucky stroke of bad fortune.

Nothing appeals to human sympathy and appreciation like the cheerful attitude of the good loser toward his loss. Every playright knows that he can count more safely upon "heart interest" among his audiences than a portrayal of calm heroism in the face of adversity than by almost any other trick of his art. Take a poor fellow who has just received an awful blow from fate, who has been battered about and seems to have lost his last chance in life and put him in a wintry street in a storm, cold, wet and hungry. If he bewails his luck the audience loses interest in him. But if he buttons up his coat, breathes his way through the storm and makes light of his misfortune by some carefree jest or piece of raillery the audience is with him every time.

Pictetius says that to have a mind free from perturbations secures one against loss, and the brave Browning adjures us to "Welcome each rebuff."

Patience in loss is a kind of recompense in itself. It is very certain that the bad loser loses more than the good one. The good loser is better able to withstand a long run of bad luck than one who, in his narrow way, keeps grieving and lamenting his ill fortune. In fact, in such a case the bad loser loses far more, for to give way to such feelings of mental distress and to keep one's losses always in mind is eventually to become pretty badly embittered—one of the worst fates that can befall a human being and one from which all should pray, as Stevenson did, to be delivered.

THE DOMESTIC ARTS

At the recent convention of restaurant proprietors it was agreed that home cooking was a lost art. At least a present-day restaurant is no place to even gather a reminiscence of it. It is hardly fair to say that all the savor of real home cooking have been dissipated forever, but it must be admitted that in the average American household the wifely pie-baker is becoming a rarity. There is a slump both in home brewing and home cooking.

UNCLE SAM ABROAD

The Democratic campaigners are seeking to stress the point that the Republican party has no foreign policy. In their own platform they say little about any Democratic foreign policy except a few ardent words to the general effect that if they were given the power they would make this country assume the place of leadership in world affairs which the Almighty intended it to take. That, of course, means nothing whatever. If anything it might be construed as a reflection on the Almighty, for if He had any plans for the disposition of America in world affairs there would have been no waiting upon the pleasure and action of the Democracy.

Secretary Hughes asserts that the fact is the Republican party has a definite policy, on which it acts, whereas the Democratic party talks a great deal about a policy which it hopes sometimes to have, but is now unable to define. If they had the power of numbers they would still be unable to agree.

The attitude of the administration is tersely interpreted by Secretary Hughes. He says that all the nations of Europe understand our impartiality and our willingness to assist in all good works. We have negotiated a large number of treaties, one of which does away with possible misunderstandings and promotes international good will. This is a sound basis for enduring peace.

America can be of substantial and enduring benefit to the world and higher civilization without belonging to the League of Nations, although The Times believes we could have rendered greater service if we had joined it five years ago. Such membership is to be commended, but while it is in dispute we can still help.

The Republican administration has faith in the American people, and that faith is not shared by the rest of the world. While the League was still groping America submitted plans which are bringing peace and industrial restoration to all Europe.

When Uncle Sam is essential or valuable in world service he will be found on the spot—League or no League. These are things which the American people are beginning to understand. There is no lack of a foreign policy so far as the Coolidge administration is concerned. There is no cause for alarm.

AMERICANIZING FRANCE

Tourists returning from Europe report that the Americanization of Paris is proceeding at an amazing rate in these post-war days. A symbol of the American financial invasion of the gay capital is seen in J. P. Morgan's new banking institution in the Place Vendome behind Napoleon's showy statue. In the museums, the theaters and the luxurious restaurants one hears,

they say, more English than French, for there the Americans and English are spending their leisure time having taken advantage of the low tourist and exchange rates. The dollar is more and more finding a place as the medium of international exchange, it is not on some point of religious dogma to see if he is sound in proletarian culture, whether he is a counter-revolutionary or one of the elect.

RIPPLING RHYMES

VIRTUOUS WRATH

I am full of ire and dudgeon for, although I'm sane and wise, I am taken for a gudgeon by the get-rich faking guys. Every day the mails are flooded with their bunt addressed to me, tales of oil wells lately spudded, tales of gold mines good to see. I have preached against the fakers, I have warned the sons of toil that to plow their stony acres beats a deal in oily oil. I have cautioned friend and neighbor to avoid the faker's scheme, for the wage of honest labor beats investing in a dream. One would think the fake promoter would have sized me up by now, saying: "Here's a wise old voter, with a high and bulging brow; he's earned my every trust, I'll scrub him with paper, he won't buy my gilded bribe." But in my mailbox every morning comes five pounds of gaudy bills, gold and purple ink adorning circulars that throb with thrills. Oh, the circulars are breezy and large fortunes they assure: getting rich is so blamed easy! Only chuckleheads are poor. But I wonder why the fakers send their gilded bunt to me, offering their desert acres or a homestead in the sea. They must know that their persistence will break down my will in time, and my patience their outlandish and they'll get my bottom dime.

PEN POINTS

A city administration is judged by the kind of police shake-ups it has.

WHEN THE SPIRITS GO ON STRIKE

Harry Houdini, the "magician among spirits," is continuing to play havoc with the mediums, who claim communication with the other world. At a recent seance in Boston a medium who had attracted widespread attention failed to establish connections with the spirits when Houdini was in the room and had taken some scientific precautions. In the world of mediums, such fraudulent mediums and Houdini have had to discover the first one yet who does not practice fraud to obtain results, he is not animated by any desire to destroy something that gives rest and peace of mind to many well-intended souls, but he wants to establish the fact that thousands are actually deluded by the mediums and given false consolation. Since the war there has been an intensified questioning: "Where are the dead?" The mediums try to take advantage of the desire to communicate with those that are gone. Better no consolation than a false one.

RELIGION IN RUSSIA

Mr. Seymour B. Conger, writing in the Philadelphia Ledger, would have us believe that the Russians are actually trying to introduce a new religion based on the life and death of Lenin. It is quite likely that there has sprung up in Communist ranks a deep veneration for Lenin, but whether men like Tchitcherina, Trotsky, Lunacharsky and Bucharin would condone a new weird religious cult is to be doubted. They may be agents of political creed altogether of joint with the spirit of the world, but they are not insane, although these pitiful gladiators may be abnormal or they may possibly split personalities, as the alienists would say. In fact some of them are quite able diplomats, linguists, savants and politicians. Lenin himself had the Marxian maxim of "religion being the opium of the people" affixed opposite the great cathedral on the Red square. To him any religion was but an instrument of oppression" invented by the ruling classes. When they have got jobs, they are to be given to the workers for free, to see if he is sound in proletarian culture, whether he is a counter-revolutionary or one of the elect.

THIS IS THE DAY

William Walker, the famous bandit of the American filibusters, was shot after a court-martial at Truxillo, Honduras, in the year 1880. He was born at Nashville, Tenn., in 1824. From 1853 to 1860 he organized filibustering expeditions in Mexico, Nicaragua, Costa Rica and Honduras. In 1856 he made himself President of Nicaragua and Honduras, was recognized by President Buchanan. He was driven out the next year. In 1860 he set out to create a republic in Honduras, was captured by a British naval force and surrendered to the Honduras authorities.

SOCIETY

BY JUANA NEAL LEVY

Honoring two brides-elect of the season, Miss Eleanor Remick Warren and Miss Anna Judge of San Francisco, a charmingly arranged buffet supper was given last evening by Miss Violet Andrews at the home of her mother, Mrs. Lorraine Park Place. Eight tables were arranged for bridge followed by the supper. Miss Andrews was assisted by her mother, Mrs. Lewis W. Andrews, and sister, Miss Anna Andrews. Miss Warren is the fiancée of Dr. Raymond Huntsberger of Santa Monica, while Miss Judge recently announced her engagement to Mr. Fred Finley, son of Mr. and Mrs. J. D. Finley of Rex Arms, and sister of Miss Mildred Finley. Miss Judge is visiting her fiance's family for a few days.

Church Wedding
Of much interest to local society is the wedding this morning of Miss Margaret Lorraine, daughter of the late Mr. and Mrs. William L. Larkin of Chicago, who became the bride of Roland D. Reinke, son of Mr. and Mrs. A. H. Reinke of Pleasanton, South Pasadena. The ceremony took place in the Church of the Angels, Garvanza, Rev. C. W. Leffingwell, former president of St. Mary's College, Morro Bay, where the attractive young bride was granted several years ago, officiating. The church will be beautifully decorated with a profusion of asters, gladioli, ferns and palms with great bunches of the blossoms in the pastel shades adorning the chancel and down the aisles of the beautiful little chapel. The bride will be given in marriage by her aunt, Mrs. A. Orlena Weller, whom she has not seen since her sister's death. Her gown is of white satin beaded in pearls and she will

wear the wedding veil of her mother, a family heirloom, of old rose points lace and tulle caught to her head by orange blossoms, and her bouquet will be of pale pink roses and lillies of the valley. Mr. Frank C. Wood, Jr., will assist as matron of honor, wearing a gown of orchid petals which she will match and will carry tea rose petals in her garter. Miss Frances Crane will be the bridesmaid in a gown of powder blue georgette and lace, a hat to match and she will carry delphinium and lilies. The little cousin of the bride, Harriet Sullivan, in pale pink georgette with trimmings of pink and blue ribbons, will carry a basket of rose petals which she will scatter by a ribbon tied to a small stick.

For Bride-Elect

Honoring Miss Jessie May Cox, whose marriage to Russell S. Grove will be one of the events of the month, Mrs. Wesley Moore entertained yesterday for luncheon and shower at the home of her mother, Mrs. Charles A. Grove, in Mulholland avenue. The table was centered by a silver chalice made in Italy, a crystal trophy with veil and shower bouquet of orange blossoms, dainty place cards indicative of the coming bridal markings in places for the summer, including Mrs. James Kay, Mrs. Alfred Marquis, Mrs. J. H. Bartlett, Mrs. Harry Ritter, Mrs. William O'Brien, Mrs. Charles A. Grove, Mrs. C. Granitis and Mrs. Richard A. Dean. The charming young bride-elect is the daughter of Mr. and Mrs. Richard A. Dean, of 1129 South Catalina street, while Mr. Grove, who is formerly of New York, is the son of Mr. and Mrs. Charles A. Grove.

From Abroad

ANSWERS TO MOTHERS

REDUCING During Pregnancy

Mrs. H.— You are nearly forty pounds overweight. You say you are pregnant and want to know if it will be harmful for you to reduce.

You have a ravenous appetite and have dizzy headache and heartburn; a great deal and are very nervous.

You have pains in the abdomen and want to know if that means you are going to have twins.

No, it is not harmful to reduce during pregnancy.

If the reducing is done gradually,

the fetus for the first three months

can have a loss in weight

Exhorts Voters to Fullest Use of Ballot Rights

Praises Prohibition and Suffrage Amendments

(Continued from First Page)

with the victims of their attack upon boyhood and girlhood, and hastened such victims to an untimely and tragic grave.

"The fight for the boyhood and girlhood of America, and the fight is still going on, but now it is a fight against lawlessness and the不爱的 ends of the government. Honest men in the Governor's office have bowed to the will of the people. Others have demonstrated that "no prohibition, no limitations upon their right to coin the money of the people, the blood of man, women and children into dollars for their coffers will be voluntarily observed by them."

WOMEN CLEAR POLITIC

The Nineteenth Amendment, granting woman suffrage, doubled the electorate and rendered impossible the forms of political management by which the underworld had prospered in their efforts to debauch girlhood and boyhood, forever damned by the clean ballot in the hands of fine women.

God helping us we are

making our dues paid to bring up the boys and girls who

will soon dominate America.

"And now, what is my message? Is this political background? The message is simple. The reason is plain. Liberty is not an abstraction, an ideal. It is a blood-bought heritage, the result of ages of sacrifice and aspirations.

The battle so freely fought at the polling place is not a mere scrap of paper. It has been paid for by the blood, the prayers, the efforts of countless millions.

The agents of control, the millions in every state and by the grit and determination of our forefathers who more than once braved the wrath of a hostile world and gun and prayer-book in hand, demanded the freest government on earth.

PRICE OF LIBERTY

"It was paid for by the blood of millions who, rather than bow to the autocratic will of militarists, gave their lives in the world war that government of the people by the people and for the people should not perish. It is tinged with the sacrifice of the One who lived and died that might be a more abundant and eternal life."

"It is your opportunity to preserve the blessings for which they fought. It is your chance to exercise the freedom they so dearly bought. It is your sword with which to fight with all your might to protect the weak. It is your opportunity to enforce in government the principle of unity and neighborhood, of brotherly love and Christian duty. What will you do with this sacred trust? Will you stay away from the polls and thus vote against your own government? You say you will vote for the best man. That seems laudable enough. But did you not vote or pray for the best man when a German and an American soldier were engaged in deadly conflict? Life is not as simple as that."

VOTE IS DUTY

"A fundamental requisite of good citizenship in this country is to vote at every election, always to be counted upon to be one of the voters in the government. Don't leave the government. It is your government. It is trouble to your troubles and its defects belong to you. Don't roll over on your tongue as a choice morsel the smell of political corruption. There has been more corruption and will be as long as men are dishonest. George Washington had a traitor in his council. No party has a monopoly on honesty. No dishonest men who claim membership in parties and seek to control the political offices and hold political office by its influence. Honest men cannot make political gains by staying out of politics and by demanding that dishonest politicians do the same."

"You say you will not vote because you will make a mistake. No doubt you will. Others have. But you can make a mistake at all the chances are equal that you will not make a mistake, and if you strive to inform yourself, then pray for guidance, you no doubt will make the right choice. The chance that you will vote right is yours. I am not asking you to vote the Republican ticket, nor am I asking you to vote the Democratic ticket. I am asking you to exercise your inestimable privilege of choice, believing that your vote and influence will add to the stability of government and in the long run to its betterment."

SECRETARY PRAISED

Secretary Wilbur's speech was prefaced by many glowing tributes of his past accomplishments, particularly the creation of the California Juvenile courts, of which he was the father. Those who spoke openly of him were Howard L. Beck, president chairman; Rex B. Goodsell, Collector of Internal Revenue; Mayor Cryer and Boyle Workman, president of the City Council.

Preceding the luncheon, Secretary Wilbur received in his Billings Room members of the Chamber of Commerce, recently constituted, consisting of Mayor Cryer, Federal Judge Paul McCormick, Dr. Rufus von Kleinsmidt, Captain W. R. Gherardi, Ralph C. Townsend, Mr. F. P. T. Tingstrom, a deputy supervisor of oil and gas operations of the United States Bureau of Mines, and the Secretary's sister, Miss Bertha Wilbur.

HAS BUSY DAY AHEAD

Later in the day, accompanied by his private secretary, John E. May, and Capt. Gherardi, his personal aide, Secretary Wilbur inspected a new shale oil reduction plant at Alhambra. A private dinner at the University Club last night completed his first day in Los Angeles.

Today will be the Secretary's busiest day since. At noon he will address the Chamber of Commerce. During the afternoon he will be principal speaker at the Defense Day exer-

CHANCE ELEVATED WILBUR

Former Bench Associate Says Secretary Was Given Portfolio as Result of Visit with Coolidge

Divine providence gave Curtis D. Wilbur, who returned to Los Angeles yesterday for the first time since taking up official duties in Washington, the Secretary of the Navy portfolio, and four qualifications which are his alone, will make him the greatest commander of American naval forces that the country had had for some time, declared John E. Richards, who as an Associate Justice of the California Supreme Court worked beside Chief Justice Wilbur before he went to Washington in the present session. Wilbur's trip by the way, he said, was a standard never before attained in coming to the capital.

NO ENTANGLEMENTS

There are other reasons for his being in Secretary Wilbur's office, he asserted, but he said, "Secretary Richards declares to make the Cabinet office successful are Secretaries Wilson, Smith, and the United States Naval Academy at Annapolis; his intimate acquaintance with practically all of the naval officers who were his class-mates and companions at the Naval Academy; his intense interest in naval affairs which has continued to grow; his great service to the present day, and his intimate knowledge of the law, which must be employed now as never before."

"We are all proud to have been associated with the Secretary on the Supreme Court bench," said Justice Richards. "He placed his entire confidence in me, and we will strive for a solution to the unfortunate problems that keep this nation occupied."

DAD'S
going to buy
a LOT at
LAKE ARROWHEAD
and We're going up
there Every Saturday

HAT'S the keenest place I ever saw. A great big woods full of nice houses, and a great big lake in the middle, full of fish.

I caught a big trout large as an elephant when we were up there two weeks ago, and we're going to build a house and go up there every Saturday.

You can fish and swim and row a boat or paddle a canoe or do about a million different things.

Next winter I'm going to go tobogganning and skating and everything. Dad says that's the greatest sport in the world, and he hasn't done that since he was a little boy back East. Dad says he's going to have more fun out of Lake Arrowhead than I am, but he'll have to go some. Wanta come along?

NOTE: Lake Arrowhead is a year-around playground, starting at \$20 per lot, includes improvements: Water, electricity, sewer and good roads.

CYRUS HILL, PHONE FIGHT AIDE, IN CITY

Rate Expert Retained by
Citizens' Group Confers
on Local Situation

Cyrus Hill, a consulting telephone engineer and rate expert, retained by the general citizens telephone committee to represent it before the State Railroad Commission hearings on local telephone rates, arrived in town yesterday. He went into immediate conference with John J. Dillon, telephone engineer of the Public Utilities Board, and G. Horace Stroh, who outlined the situation here to him. His partner, John J. Wray, is expected to arrive tomorrow evening.

There are many similar cases being heard at the moment time," said Mr. Hill, "Seattle, Tacoma and Spokane in Washington, the States of Michigan, Indiana, Illinois, New York, New Jersey, Pennsylvania, West Virginia, and New York City and Boston, all have somewhat similar situations and in each the company is connected with the American Telegraph and Telephone Company, parent concern of the Southern California Telephone Company. In each case the local company asks an increase in rates to meet what any comment on this specific case until I have examined into it more thoroughly."

Another expert coming here for conference is W. T. Tamm, former president of the State Railroad Commission, who will arrive this morning from San Francisco.

William Lacy, vice-chairman of the general committee and the absentee Chairman Louis W. Moller, yesterday called the committee to a luncheon meeting Monday at the Chamber of Commerce, which he said would be highly important.

During the meeting absence Harry H. Culver will preside over the executive committee.

N. R. Powley, commercial supervisor of the telephone company, and its decimal plan, has proposed new rate and service arrangement had been greatly misunderstood.

This plan had been in effect during the current year, said Mr. Powley, "the increased revenue of the company would have been less than \$5,000,000 instead of the \$15,000,000 and upward estimated by the opponents of the proposal. Message rate service for business telephones with the optional flat rate will come nearer to distributing the cost of service in a fair manner than any rate structure which has ever been in effect in Los Angeles."

"The company's expenses exceeded its revenues by \$7,043,953 between April 1, 1921, and May 1, 1924. The long financial condition of the company would have resulted in bankruptcy long ago but for the constant financial assistance of the American Telegraph and Telephone Company."

The superdreadnaught Idaho, first of the Battle Fleet to return to Los Angeles Harbor following the summer's cruise in Northern Pacific waters, is scheduled to arrive Saturday morning, noon or Sunday, according to word from the flagship U.S.S. California yesterday.

The battleship will return to San Francisco today after four days of tactical exercises at sea and the Idaho will proceed immediately for that port, according to the advice received here.

The battleship Colorado and Mississippi, will leave San Francisco on the 28th inst., arriving here October 1 after holding problems at sea.

Apparently the U.S.S. Colorado, en route to the Pacific on her first voyage after commissioning, will proceed directly to San Francisco without stopping here. She will return to Los Angeles October 1. The Colorado will be the most powerful unit in the fleet until the latter is joined by the New Mexico, now undergoing trial runs.
